# Subject index*

A

**Abstracts**
Abstracts. 1991;19:103-28

**Acquired immunodeficiency syndrome**
Glove use by health care workers: results of a tristate investigation (Kaczmarek et al). 1991;19:228-32
Health care facilities in a rural state: an examination of infection control policies (Timmerman et al). 1991;19:250-3 (Brief rep.)
Willingness of nursing students and faculty to care for patients with AIDS (Gignac and Oermann). 1991;19:191-7

**AIDS**; *see* **Acquired immunodeficiency syndrome**

**Antibiotics**
Postsplenectomy sepsis and antibiotic prophylaxis before dental work (Westerman) (Letter); (Maxwell et al) (Reply). 1991;19:254-5
Surveillance and control of antibiotic use in the hospital (Garibaldi and Burke). 1991;19:164-70 (Practice forum)

**APIC guidelines for infection control practice**
APIC guideline for infection prevention and control in the long-term care facility (Smith and Rusnak). 1991;19:198-215

B

**Bacteria**
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9
Indigenous multiresistant bacteria from flowers in hospital and nonhospital environments (Kates et al). 1991;19:156-61

**Bacteriuria**
Prevention of catheter-associated bacteriuria: clinical trial of methods to block three known pathways of infection (Classen et al). 1991;19:136-42

**Blood**
Determinants of blood and body fluid exposure in a large teaching hospital: hazards of the intermittent intravenous procedure (Yassi and McGill). 1991;19:129-35
Hepatitis C infection in the health care setting. I. Low risk from parenteral exposure to blood of human immunodeficiency virus–infected patients (Wormser et al). 1991;19:237-42

**Blood donors**
Hepatitis C: new guidelines for donor testing (Townsend). 1991;19:221-4 (Guest editorial)

**Body fluids**
Determinants of blood and body fluid exposure in a large teaching hospital: hazards of the intermittent intravenous procedure (Yassi and McGill). 1991;19:129-35
A survey of nurses' knowledge, opinions, and reported uses of the Body Substance Isolation system (Troya et al). 1991;19:268-76

**Brief reports**
Brief reports. 1991;19:42-4, 92-7, 162-3, 250-3

C

**Catheterization, urinary**; *see* **Urinary catheterization**

**Cellulitis**
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)

**Commentaries**
Commentaries. 1991;19:1-18

**Coronary artery bypass**
An outbreak of *Staphylococcus aureus* sternal wound infections in patients undergoing coronary artery bypass surgery (McLeod et al). 1991;19:92-7 (Brief rep.)

**Correction**
Guideline for use of topical antimicrobial agents (Larson) (1988;16:253-66). 1991;19:59

**Cost control**
A study of the use of gloves in a large teaching hospital (Stringer et al). 1991;19:233-6

**Cross infection, diagnosis**
Agenda for change (Mumford) (Letter); (Patterson) (Reply). 1991;19:171-2
Nosocomial legionnaires' disease: lessons from a four-year prospective study (Marrie et al). 1991;19:79-85
Screening for nosocomial legionellosis by culture of the water supply and targeting of high-risk patients for specialized laboratory testing (Goetz and Yu). 1991;19:63-6 (Guest editorial)
Study of the definition of nosocomial infections (SDNI) (Larson et al). 1991;19:259-67

**Cross infection, epidemiology**
National nosocomial infections surveillance system (NNIS): description of surveillance methods (Emori et al). 1991;19:19-35
Prevalence of nosocomial infection in long-term-care Veterans Administration medical centers (Steinmiller et al). 1991;19:143-6

**Cross infection, history**
The evolution of our profession: lessons from Darwin (Soule). 1991;19:45-59 (Special article)

**Cross infection, prevention and control**
APIC guideline for infection prevention and control in the long-term care facility (Smith and Rusnak). 1991;19:198-215 (Guidelines)

*February, pp. 1-62; April, pp. 63-128; June, pp. 129-176; August, pp. 177-220; October, pp. 221-258; December, pp. 259-310.

Social power and motivation for the compliance of nurses and housekeeping staff with infection control policies (Seto et al). 1991;19:42-4 (Brief rep.)

D

**Darwin, Charles**
The evolution of our profession: lessons from Darwin (Soule). 1991;19:45-59 (Special article)
**Dental prophylaxis**
Postsplenectomy sepsis and antibiotic prophylaxis before dental work (Westerman) (Letter); (Maxwell et al) (Reply). 1991;19:254-5
**Dermatomycoses**
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)
**Discrimination**
Willingness of nursing students and faculty to care for patients with AIDS (Gignac and Oermann). 1991;19:191-7
**Donors, blood**; *see* **Blood donors**
**Drainage, sanitary**
Recommendations for urinary catheter and drainage bag changes (DeStaffino) (Letter); (Checko et al) (Reply). 1991;19:255-6

E

**Education**
The enhancement of infection control in-service education by ward opinion leaders (Seto et al). 1991;19:86-91
**Epidemiology**
The evolution of our profession: lessons from Darwin (Soule). 1991;19:45-59 (Special article)
***Escherichia coli***
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9
**Ethics**
Willingness of nursing students and faculty to care for patients with AIDS (Gignac and Oermann). 1991;19:191-7
**Eye infections**
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)

F

**Flaps, surgical**; *see* **Surgical flaps**
**Flowers**
Indigenous multiresistant bacteria from flowers in hospital and nonhospital environments (Kates et al). 1991;19:156-61
**Fluorescent antibody technique**
Rapid identification of respiratory syncytial virus infections by direct fluorescent antibody testing: reliability as a guide to patient cohorting (Jacobsen et al). 1991;19:73-8
**Fungal skin diseases**; *see* **Dermatomycoses**

G

**Gastroenteritis**
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)
**Geriatric homes**; *see* **Homes for the aged**
**Gloves**
Glove use by health care workers: results of a tristate investigation (Kaczmarek et al). 1991;19:228-32
Pandemonium over gloves: use and abuse (DeGroot-Kosolcharoen). 1991;19:225-7 (Guest editorial)
A study of the use of gloves in a large teaching hospital (Stringer et al). 1991;19:233-6
**Gowns, surgical**; *see* **Protective clothing**
**Guest editorials**
Guest editorials. 1991;19:63-6, 221-7

H

**Handwashing**
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9
**Hepatitis, viral, non-A, non-B**
Hepatitis C infection in the health care setting. I. Low risk from parenteral exposure to blood of human immunodeficiency virus–infected patients (Wormser et al). 1991;19:237-42
Hepatitis C: new guidelines for donor testing (Townsend). 1991;19:221-4 (Guest editorial)
**Hepatitis vaccines**; *see* **Viral hepatitis vaccines**
**History taking**; *see* **Medical history taking**
**HIV infections**
Health care facilities in a rural state: an examination of infection control policies (Timmerman et al). 1991;19:250-3 (Brief rep.)
Hepatitis C infection in the health care setting. I. Low risk from parenteral exposure to blood of human immunodeficiency virus–infected patients (Wormser et al). 1991;19:237-42
*S. aureus* nasal carriage among homosexual men with and without HIV infection (Battan et al). 1991;19:98-100 (Letter)
**Homes for the aged**
Two years of infection surveillance in a geriatric long-term care facility (Darnowski et al). 1991;19:185-90
**Homosexuality**
*S. aureus* nasal carriage among homosexual men with and without HIV infection (Battan et al). 1991;19:98-100 (Letter)
**Hospital-acquired infection**; *see* **Cross infectionHospitals, veteran**
Prevalence of nosocomial infection in long-term-care Veterans Administration medical centers (Steinmiller et al). 1991;19:143-6
**Housekeeping, hospital**
Social power and motivation for the compliance of nurses and housekeeping staff with infection control policies (Seto et al). 1991;19:42-4 (Brief rep.)

I

**IgG**
Measles (Arguedas et al). 1991;19:290-8
**Immunization**
Influenza and hepatitis B vaccine acceptance: a survey

**Immunization—cont'd**
of health care workers (Christian). 1991;19: 177-84
Measles (Arguedas et al). 1991;19:290-8
**Influenza vaccine**
Influenza and hepatitis B vaccine acceptance: a survey of health care workers (Christian). 1991;19: 177-84
**Injuries**; *see* **Wounds and injuries**
**Isopropanol**
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9

J

**Jails**; *see* **Prisons**

L

**Leadership**
The enhancement of infection control in-service education by ward opinion leaders (Seto et al). 1991;19:86-91
**Legionnaire's disease**
Nosocomial legionnaires' disease: lessons from a four-year prospective study (Marrie et al). 1991;19:79-85
Screening for nosocomial legionellosis by culture of the water supply and targeting of high-risk patients for specialized laboratory testing (Goetz and Yu). 1991;19:63-6 (Guest editorial)
**Legislation**
Medical waste—declining options in the 90s (Karpiak and Pugliese). 1991;19:8-15 (Commentary)
**Letters**
Agenda for change (Mumford) (Letter); (Patterson) (Reply). 1991;19:171-2
Definitions of infections (McGeer). 1991;19:171
Is it the gown or the precautions in its use? (Belkin). 1991;19:172
Postsplenectomy sepsis and antibiotic prophylaxis before dental work (Westerman) (Letter); (Maxwell et al) (Reply). 1991;19:254-5
Recommendations for urinary catheter and drainage bag changes (DeStaffino) (Letter); (Checko et al) (Reply). 1991;19:255-6
*S. aureus* nasal carriage among homosexual men with and without HIV infection (Battan et al). 1991;19:98-100
**Literature**
Literature reviews. 1991;19:60-2, 101-2, 173-6, 216-20, 257-8, 299-300
**Long term care**
APIC guideline for infection prevention and control in the long-term care facility (Smith and Rusnak). 1991;19:198-215 (Guidelines)
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)
Definitions of infections (McGeer). 1991;19:171 (Letter)
Prevalence of nosocomial infection in long-term-care Veterans Administration medical centers (Steinmiller et al). 1991;19:143-6
Two years of infection surveillance in a geriatric long-term care facility (Darnowski et al). 1991;19:185-90

M

**Masks**
Filtration efficiency of surgical face masks: the need for more meaningful standards (Davis). 1991;19:16-8 (Commentary)
**Measles**
Measles (Arguedas et al). 1991;19:290-8
**Medical history taking**
High prevalence of historical risk factors for blood-borne infections among inpatients at three community hospitals (Havlichek et al). 1991;19:67-72
**Medical waste**
Medical waste—declining options in the 90s (Karpiak and Pugliese). 1991;19:8-15 (Commentary)
**Muscle flaps**; *see* **Surgical flaps**

N

**National nosocomial infections surveillance system**
National nosocomial infections surveillance system (NNIS): description of surveillance methods (Emori et al). 1991;19:19-35
**Needles**
Determinants of blood and body fluid exposure in a large teaching hospital: hazards of the intermittent intravenous procedure (Yassi and McGill). 1991;19:129-35
**Nosocomial infection**; *see* **Cross infection**
**Nurses**
Social power and motivation for the compliance of nurses and housekeeping staff with infection control policies (Seto et al). 1991;19:42-4 (Brief rep.)
A survey of nurses' knowledge, opinions, and reported uses of the Body Substance Isolation system (Troya et al). 1991;19:268-76

O

**Old age homes**; *see* **Homes for the aged**
**Operating rooms**
Epidemiologic observations of operating room infections resulting from variations in ventilation and temperature (Everett and Kipp). 1991;19:277-82

P

**Patient education**
Patient awareness of health precautions after splenectomy (White et al). 1991;19:36-41
**Postoperative complications**
A cluster of sternal wound infections requiring muscle flap repair: problems in epidemiologic investigation (Gellert et al). 1991;19:283-9
Postsplenectomy sepsis and antibiotic prophylaxis before dental work (Westerman) (Letter); (Maxwell et al) (Reply). 1991;19:254-5
**Practice forum**
Practice forum. 1991;19:164-70
**Prescriptions, drug**
Surveillance and control of antibiotic use in the hospital (Garibaldi and Burke). 1991;19:164-70 (Practice forum)

**Prisons**
An outbreak of scabies in a New York City jail (Johnsen et al). 1991;19:162-3 (Brief rep.)
**Prophylaxis, dental**; *see* **Dental prophylaxis**
**Protective clothing**; *see also* **Gloves**
Filtration efficiency of surgical face masks: the need for more meaningful standards (Davis). 1991;19:16-8 (Commentary)
Is it the gown or the precautions in its use? (Belkin). 1991;19:172 (Letter)
Transmural surgical gown pressure measurements in the operating theater (Altman et al). 1991;19:147-55

**Q**

**Questionnaires**
Health care facilities in a rural state: an examination of infection control policies (Timmerman et al). 1991;19:250-3 (Brief rep.)
A survey of nurses' knowledge, opinions, and reported uses of the Body Substance Isolation system (Troya et al). 1991;19:268-76

**R**

**Respiratory syncytial viruses**
Rapid identification of respiratory syncytial virus infections by direct fluorescent antibody testing: reliability as a guide to patient cohorting (Jacobsen et al). 1991;19:73-8
**Respiratory tract infections**
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)
**Reviews**
Literature reviews. 1991;19:60-2, 101-2, 173-6, 216-20, 257-8, 299-300
**Ribavirin**
Measles (Arguedas et al). 1991;19:290-8
**Risk factors**
High prevalence of historical risk factors for blood-borne infections among inpatients at three community hospitals (Havlichek et al). 1991;19:67-72
**Rotaviruses**
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9
**Rural health care**
Health care facilities in a rural state: an examination of infection control policies (Timmerman et al). 1991;19:250-3 (Brief rep.)

**S**

**Scabies**
An outbreak of scabies in a New York City jail (Johnsen et al). 1991;19:162-3 (Brief rep.)
**Skin diseases, fungal**; *see* **Dermatomycoses**
**Soaps**
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9
**Social control**
The enhancement of infection control in-service education by ward opinion leaders (Seto et al). 1991;19:86-91
Social power and motivation for the compliance of nurses and housekeeping staff with infection control policies (Seto et al). 1991;19:42-4 (Brief rep.)
**Special articles**
Special articles. 1991;19:45-59
**Splenectomy**
Patient awareness of health precautions after splenectomy (White et al). 1991;19:36-41
Postsplenectomy sepsis and antibiotic prophylaxis before dental work (Westerman) (Letter); (Maxwell et al) (Reply). 1991;19:254-5
**Staphylococcal infections**
An outbreak of *Staphylococcus aureus* sternal wound infections in patients undergoing coronary artery bypass surgery (McLeod et al). 1991;19:92-7 (Brief rep.)
***Staphylococcus aureus***
*S. aureus* nasal carriage among homosexual men with and without HIV infection (Battan et al). 1991;19:98-100 (Letter)
**Surgical flaps**
A cluster of sternal wound infections requiring muscle flap repair: problems in epidemiologic investigation (Gellert et al). 1991;19:283-9
**Surgical gowns**; *see* **Protective clothing**
**Surgical masks**; *see* **Masks**

**T**

**Temperature**
Epidemiologic observations of operating room infections resulting from variations in ventilation and temperature (Everett and Kipp). 1991;19:277-82

**U**

**Urinary catheterization**
Prevention of catheter-associated bacteriuria: clinical trial of methods to block three known pathways of infection (Classen et al). 1991;19:136-42
Recommendations for urinary catheter and drainage bag changes (DeStaffino) (Letter); (Checko et al) (Reply). 1991;19:255-6
**Urinary tract infections**
Definitions of infection for surveillance in long-term care facilities (McGeer et al). 1991;19:1-7 (Commentary)

**V**

**Vaccination**
Influenza and hepatitis B vaccine acceptance: a survey of health care workers (Christian). 1991;19:177-84
Measles (Arguedas et al). 1991;19:290-8
**Ventilation**
Epidemiologic observations of operating room infections resulting from variations in ventilation and temperature (Everett and Kipp). 1991;19:277-82
**Veterans medical centers**; *see* **Hospitals, veteran**
**Viral hepatitis vaccines**
Influenza and hepatitis B vaccine acceptance: a survey of health care workers (Christian). 1991;19:177-84
**Viruses**
Comparison of cloth, paper, and warm air drying in eliminating viruses and bacteria from washed hands (Ansari et al). 1991;19:243-9

**Vitamin A**
Measles (Arguedas et al). 1991;19:290-8

**W**

**Waste, medical**; *see* **Medical waste**
**Water microbiology**
Indigenous multiresistant bacteria from flowers in hospital and nonhospital environments (Kates et al). 1991;19:156-61
Screening for nosocomial legionellosis by culture of the water supply and targeting of high-risk patients for specialized laboratory testing (Goetz and Yu). 1991;19:63-6 (Guest editorial)
**Wound infection**
A cluster of sternal wound infections requiring muscle flap repair: problems in epidemiologic investigation (Gellert et al). 1991;19:283-9
An outbreak of *Staphylococcus aureus* sternal wound infections in patients undergoing coronary artery bypass surgery (McLeod et al). 1991;19:92-7 (Brief rep.)
**Wounds and injuries**
Determinants of blood and body fluid exposure in a large teaching hospital: hazards of the intermittent intravenous procedure (Yassi and McGill). 1991;19:129-35
